

Report Date: 12 Feb 2015

Summary Report for Individual Task
805D-211-1103
Prepare Unit Ministry Team (UMT) Input to Running Estimates, OPLANS and OPORDS
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD5 - This product/publication has been reviewed by the product developers in coordination with the Chaplain School foreign disclosure authority. This product is releasable to students from all requesting foreign countries without restrictions.

Condition: Given a battalion level OPORD, higher command Religious Support Plan (Tab D (Religious Support) of Appendix 2 (Personnel Services Support) of Annex F (Sustainment)), a requirement to provide information of unit and UMT operations and general office supplies. This task should not be trained in MOPP 4.

Standard: Prepare UMT input to running estimates, OPLANS and OPORDS to meet the commander's guidance and intent for UMT support of operations.

Special Condition: None

Safety Risk: Low

MOPP 4: Never

None

WARNING

None

CAUTION

None

Remarks: None

Notes: None

Performance Steps

1. Identify all pertinent information needed for the running estimate in accordance with (IAW) the format in FM 6-0, chapter 8.
 - a. Religious support (RS) priorities based on unit's role in operation.
 - b. RS needs per phase, i.e., encouragement and inspiration, low density faith traditions, care for wounded and dying and internal or external advisement.
 - c. Date and time of deployment, units deploying, applicable maps and overlays, call sign and frequency, and METT-TC and PMESII-PT considerations.
 - d. Printed report of religious preferences of unit Soldiers and any special ration needs.
 - e. Transportation means, route planning, planned UMT location(s) by phase.
2. Analyze the information with supervisory chaplain.
3. Identify the following:
 - a. Facts that influence RS and RS planning.
 - b. Logical assumptions that must be made to conduct RS and RS planning when facts are not yet known.
 - c. Constraints (imposed from higher) and limitations (not able to do with current resources) that have an effect on RS, i.e., dependencies on area coverage from other chaplains for low density religious traditions.
 - d. Terrain/Weather: how will they impact delivery of RS and indigenous religious holidays and events?
 - e. Enemy forces: what enemy activities may shape RS and impact on movement; religious ideology and the local populace?
 - f. Friendly forces: What is your RS plan for separate unit locations and the variety of religious traditions represented? What are your RS personnel assets and available RS supplies?
 - (1) Unit locations includes aerial and sea ports of debarkation, tactical assembly areas, lines of departure, main and alternate supply routes, and forward operating bases, combat outposts or base clusters without available RS.
 - (2) Available RS personnel assets include company-level RS specialists or certified distinctive faith group leaders. Also consider area coverage from other chaplains for low density faith traditions. RS supplies include requirements for all authorized personnel.
 - (3) Analyze critical RS requirements and holy days during the operation, religious preferences of your personnel and any area support requirements which include but are not limited to co-located Army, Joint and coalition forces requiring RS.
 - (4) RS to combat and operational stress casualties, traumatic event management support activities, and RS in the event of a MASCAL.
 - g. Civilian considerations: what civilian considerations might affect RS? Include any RAA/RIA information that may impact the operation.
 - h. Record possible religious and moral implications of the courses of action being developed.
 - i. Include analysis of problems that impact delivery of RS and proposed plans for overcoming those problems.

j. Recommendations and conclusions you make will support the commander's restated mission and be synchronized with all the other staff functional areas, especially within sustainment.

4. Prepare input in the appropriate format (Running Estimate, Religious Support Matrix, or Religious Support Plan) IAW FM 1-05, FM 6-0, and local SOP.

5. Review the input for reliability and completeness. Ensure that all information is correct. Have the supervisory chaplain review and approve the draft product.

6. Staff the completed document ICW the chaplain with the Executive Officer (XO) for Commander's approval and inclusion into the running estimate, OPLAN, or OPORD and with higher UMT or chaplain section for higher HQ RS plan.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Soldier is evaluated orally or in written form based on their ability to perform the performance measures listed. Soldiers who miss any performance measures should be retrained and reevaluated.

Evaluation Preparation: Set-up: Tell the Soldier to brief orally or in written form information prepared as input to the Running Estimate, OPLAN or OPORD.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Identified all pertinent information needed for the running estimate IAW the format in FM 6-0, chapter 8.			
2. Analyzed the information with your supervisory chaplain.			
3. Identified facts, assumptions, constraints and limitations relevant to RS planning and the impact to RS of terrain/weather, enemy forces, friendly forces and civilian considerations.			
4. Prepared input in the appropriate format (Running Estimate, Religious Support Matrix, or Religious Support Plan) IAW FM 1-05, FM 6-0, and local SOP.			
5. Reviewed the input for reliability and completeness.			
6. Staffed the completed document for Commander's approval and inclusion into the running estimate, OPLAN, or OPORD.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you

will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. Environmental protection is a continual process. Always be alert to ways to protect our environment and reduce waste.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. Everyone is responsible for safety. A thorough risk assessment must be completed prior to every mission or operation.
